

PLEASE REJECT NAB's petition 04-160!!!!!!I am an XM satellite radio subscriber and am distressed to learn that XM is in danger of losing it's right to provide certain programming to me. I LOVE xm radio...it's the only thing that has made my 4 hours per day of driving SO MUCH MORE TOLERABLE...I find XM just fabulous and I have dragged my friends into my car so that I can show them how great it is...and each time XM has a new customer.

Last December when I was car shopping, my condition of the purchase of my Range Rover was to wait until I was assured that the car was capable of accomodating the XM cable broadcast service.

I listen not only to CNN and Fox News, but I SPECIFICALLY listen to the (national) weather channel at least once a day while driving. My three children are in (different) colleges in the East and I find the weather channel extremely informative about their weather conditions. It's a real service to me as I live in the west.

PLEASE do not cancel these fantastic stations!
